

KOTT Lumber has been delivering service excellence to Ottawa home builders for more than 30 years. We are looking for **Designers** with a great attitude to join our growing team. We are offering a terrific opportunity and the flexibility to achieve your personal and career goals with a competitive remuneration and benefits package.

Essential duties and responsibilities:

- Analyze and resolve design roof truss design concerns as they arise.
- Conduct sites visits as required to deal with specific customer issues. Meet with customers to review plans and address any specific issues that may arise with job design.
- Consult with architects, engineers and designers in relation to the interaction of the truss system with other framing components.
- Design Roof Truss systems packages.
- Create Roof Truss systems layouts for all stages of the construction process. Layouts for estimates, building permits and construction.
- Other duties as may be assigned from time to time.

Education and Experience:

- University or College diploma in civil engineering or architecture technology
- Strong knowledge of MITEK E-Frame design software
- 3 to 5 years of work related experience in truss required
- Experience in wall and floor design is an asset
- Ability to make decisions and work independently or with others
- Construction industry experience is an asset
- Strong communications skills
- Strong organizational skills
- Strong attention to detail and the ability to work in a fast paced environment

Interested candidates should forward their resume in confidence to **jobs@kottlumber.com**

We thank all candidates who apply, however, only those selected for an interview will be contacted
